Re: Citizens Broadband Radio Service
GN Docket No. 12-354, RM-11778 and RM-11789
Comments from AirLink Internet Services

Dear Ms. Dortch:

I am writing on behalf of AirLink Internet Services. We provide high-speed, wireless internet to more than 1500 rural households in North Eastern Oklahoma.

We were very encouraged when the FCC adopted the CBRS rules for spectrum sharing and have already invested a significant amount of capital for infrastructure to support the 3550-3700 spectrum. Our plan is to participate in the PAL auctions and use the GAA where necessary.

AirLink Internet Services **opposes** the recently filed petition by CTIA and T-Mobile. If the FCC adopted their proposals, AirLink and many other wireless internet providers would not be able to use the GAA spectrum and would be severely limited in bidding for PAL spectrum against the deep pockets of T-Mobile.

Please do not alter the currently existing rules for the CBRS band.

Thank you and best regards,

Mike Whelan
CEO, AirLink Internet Services
Board Member, Wireless Internet Services Providers Association (WISPA)
